Society

# THIRD INTERNATIONAL CONFERENCE ON SHAFT DESIGN AND CONSTRUCTION // 2012

24-26.04.12 // LONDON, UK

---

FOLLOWING ON FROM THE UK CONFERENCES SHAFT SINKING AND TUNNELLING 1959 (53 YEARS AGO) AND SHAFT ENGINEERING 1989 (23 YEARS AGO), WHICH COVERED THE TOPIC GLOBALLY, THIS CONFERENCE IS AGAIN TARGETED AT DESIGN AND CONSTRUCTION PROFESSIONALS WORLDWIDE. THE SCOPE WILL INCLUDE BOTH CIVIL ENGINEERING SHAFTS AND MINE SHAFTS AND ALL AREAS OF DESIGN AND CONSTRUCTION WILL BE CONSIDERED.

It is anticipated that the programme will cover//

- Planning
- Geotechnical and hydrogeological data acquisition
- Ground temporary support
- Permanent lining design
- Construction materials
- Excavation methods
- Ground water control
- Shaft furnishings
- Rehabilitation
- Performance monitoring
- Risk management
- Case studies

Presentations will cover//

- Civil Engineering Shafts
- General Shaft Design
- Potash and Salt Mine Shafts
- Coal Mine Shafts
- Underground Nuclear Waste Repositories
- Mechanised Shaft Construction
- Ground Freezing
- Shaft Closure
